📍 Tuxtla Gutiérrez, Chiapas - 29014, Mexico

PROFESSIONAL SUMMARY

Full Stack Developer specializing in modern accounting and financial software solutions with expertise across the full technology stack. Currently developing enterprise-level financial applications using Angular and React for frontend, C# .NET for backend, and JavaScript/TypeScript for full-stack development. Experienced in creating comprehensive financial management systems for accounting firms, from initial UI/UX design to scalable backend implementation with secure deployment. Proficient in building robust, maintainable solutions that bridge accounting expertise with cutting-edge technology.

PROFESSIONAL EXPERIENCE

• ARX SOFTWARE

Full Stack Developer - Accounting Software Solutions

On-site

Jul 2024 - Present

- Develop specialized accounting applications using **C# .NET** backend and **Angular/React** frontend with **TypeScript/JavaScript**
- Create comprehensive financial solutions for accounting firms, transforming traditional processes into digital workflows
- Implement full-stack development across the entire technology spectrum: frontend (Angular, React), backend (C# .NET), and database systems
- Build scalable architectures for accounting applications with JWT authentication, role-based access control, and financial data security
- Design responsive user interfaces for web and mobile accounting systems with focus on usability for financial professionals
- Deploy and maintain applications on Hostinger, implementing CI/CD pipelines for accounting software solutions
- Create functional prototypes and mockups for financial applications using modern design tools ([see example](#))

• ENNOVASOFT 🌐

Backend Developer

Hybrid

Dec 2023 - Jun 2024

- Developed backend with FastAPI for therapy application implementing microservices in Kubernetes
- Architected system with Docker, MySQL, Firebase and AWS for scalable infrastructure
- Implemented authentication systems and communication flows for therapeutic platform

• Corre la Voz 🌐

Full Stack Developer

Remote

Apr 2024 - Jul 2024

- Developed complete landing page for "Casa de Agua" with booking system and Node.js
- Designed responsive user interface and automated email confirmation system

• Bitquarksystems 🌐

Backend Developer

Hybrid

Oct 2022 - Jun 2023

- Implemented role-based API with NestJS and MySQL for restaurant management system
- Designed scalable access control system with database migrations

EDUCATION

• Polytechnic University of Chiapas

Software Engineering (Expected Graduation: Jul 2025)

Suchiapa, Mexico

GPA: 89/100 (3.7/4.0)

- Relevant Coursework: Software Architecture, Database Systems, Web Technologies, Software Engineering Principles

TECHNICAL SKILLS

- **Specialization:** Accounting/Financial Software Solutions, Business Application Development
- **Frontend:** Angular, React, TypeScript, JavaScript, HTML5, CSS3, RxJS
- **Backend:** C#, ASP.NET Core, .NET 6+, Entity Framework, Web API, RESTful Services
- **Full Stack:** JavaScript/TypeScript Full-Stack Development, MEAN/MERN Stack Experience
- **Mobile:** React Native, Progressive Web Apps (PWA)
- **Databases:** SQL Server, MySQL, PostgreSQL, Database Design for Financial Systems
- **Security:** JWT Authentication, OAuth 2.0, Role-Based Access Control, Financial Data Security
- **DevOps & Tools:** Git, Docker, Hostinger, CI/CD Pipelines, Postman, Swagger
- **Design & Prototyping:** Figma, Uizard, UI/UX Design for Business Applications
- **Accounting Tech:** Financial APIs, Accounting Workflow Automation, Digital Transformation

NOTABLE PROJECTS

- **Financial Management System Prototype**
Full Stack Accounting Application
 - Developed comprehensive financial application prototype using Angular frontend and C# .NET backend
 - Implemented features for accounting firms including ledger management, invoice processing, and financial reporting
 - Designed responsive interface optimized for financial professionals' workflow
- ARX SOFTWARE
2024

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Google:** User Experience (UX) Design Certification
- **AWS Academy:** Cloud Foundations, Cloud Architecting
- **Cisco:** Introduction to Cybersecurity, Networking Essentials
- **Microsoft:** .NET Framework Fundamentals (in progress)

ADDITIONAL INFORMATION

- **Languages:** Spanish (Native), English (B1 Intermediate - Professional Working Proficiency)
- **Industry Focus:** Accounting Software, Financial Technology (FinTech), Business Applications
- **Key Strengths:** Full-Stack Development, Accounting Domain Knowledge, Software Architecture, UI/UX Design
- **Portfolio:** [azaly.com](#) | [Finance Application Prototype](#)
- **Availability:** Full-time • Remote • Hybrid • On-site
